## People First Movement Friend and Supporter Membership Form

People First of Canada is the National Voice of people labelled with an intellectual disability. Our main objective is inclusion for all. Our purpose is to educate and advocate for the full citizenship of Canadians with intellectual disabilities to be equal and contributing members of society.

People First of Canada believes that all people have the right to live in the community. One of our primary goals is that all institutions in Canada **must** be closed.

Although only people who have been labelled with an intellectual disability can be voting members of the organization, the movement is always open to the interest of friends, supporters and allies.

Friends and supporters help us spread the word of inclusion and support our activities and values. Membership also helps us show our government that Canadian citizens believe in inclusion and diversity in our society.

If you would like to show your support for the People First movement, please fill out the form below.

Thank you and welcome to the movement!
